EDUCATION

LJ University

Bachelor of Computer Application; CGPA: 9.01/10

Master of Computer Application;

Ahmedabad, India

June 2021 – 2024

June 2024 – 2026

EXPERIENCE

Full Stack Developer

Shuru Advisory Private Limited

Onsite

Feb 2024 – Present

- Contributed to the development of a fintech startup platform focused on Pre-IPO and Private equity investments, using PHP, Laravel, and MySQL and Hostinger for hosting, working on both frontend and backend.
- Collaborated with the UI/UX designer, providing direction and feedback on design decisions to align the interface with product and user requirements.
- Currently enhancing performance, and user experience in the next version of the platform.

PROJECTS

Shuruup PHP, Laravel, TALL Stack, MySQL, AWS S3, Laravel Web Crawler

- Built a pre-IPO and private market investment platform enabling users to discover and invest in unlisted shares and private equity opportunities.
- Developed the frontend using the TALL Stack (Tailwind CSS, Alpine.js, Laravel, Livewire) for a fast, responsive, and interactive user experience.
- Implemented a Laravel-based web crawler to scrape and aggregate real-time market data, with MySQL for structured storage and AWS S3 for file and document management.

StartupIncubate PHP, Laravel, MySQL, AWS S3

- Developed a startup incubation platform connecting early-stage startups with investors and funding opportunities.
- Built core modules for profile management, funding applications, and investor matching using PHP and Laravel, with MySQL for storage.
- Integrated AWS S3 for secure storage of pitch decks and business documents.

Gym Management System PHP, Laravel, MySQL,

- Developed a robust system to manage member details, memberships, and trainer schedules with secure rbac.
- Built modules for membership plan management, renewal tracking, and automated expiry notifications to reduce manual follow-ups.

TECHNICAL SKILLS

Languages: PHP, JavaScript, SQL

Frameworks: Laravel, React.js, Alpine.js, Livewire, Tailwind CSS, GSAP

Databases: MySQL, MongoDB

Tools: Git, GitHub, AWS S3, Hostinger, Postman

CERTIFICATIONS

- SQL: A Practical Introduction for Querying Databases – **Coursera**
- Programming for Everybody – **Coursera**
- Introduction to CSS3 – **Coursera**

TECHNICAL ACHIEVEMENTS

- Delivered freelance web development projects for independent clients, including e-commerce and business card platforms, managing full project lifecycle from requirements to deployment.
